# Vowels

## *Articulatory description*

4-part classification system for vowels:

# Vowels

## *Articulatory description*

### 4-part classification system for vowels:

- Tongue height
- Frontness vs. backness of tongue
- Tenseness
- Lip rounding
- (Nasality)

## Vowel Height

## Vowel Height

- High vowels

## Vowel Height

- High vowels — tongue body is raised

## Vowel Height

- High vowels — tongue body is raised
  - [i], [ɪ], [u], [ʊ]

## Vowel Height

- High vowels — tongue body is raised
  - [i], [ɪ], [u], [ʊ]
- Mid vowels

## Vowel Height

- High vowels — tongue body is raised
  - [i], [ɪ], [u], [ʊ]
- Mid vowels — tongue body is intermediate

### Vowel Height

- High vowels — tongue body is raised
  - [i], [ɪ], [u], [ʊ]
- Mid vowels — tongue body is intermediate
  - [e], [ɛ], [o], [ɔ], [ə], [ʌ]

### Vowel Height

- High vowels — tongue body is raised
  - [i], [ɪ], [u], [ʊ]
- Mid vowels — tongue body is intermediate
  - [e], [ɛ], [o], [ɔ], [ə], [ʌ]
- Low vowels

## Vowel Height

- High vowels — tongue body is raised
  - [i], [ɪ], [u], [ʊ]
- Mid vowels — tongue body is intermediate
  - [e], [ɛ], [o], [ɔ], [ə], [ʌ]
- Low vowels — tongue body is lowered

## Vowel Height

- High vowels — tongue body is raised
  - [i], [ɪ], [u], [ʊ]
- Mid vowels — tongue body is intermediate
  - [e], [ɛ], [o], [ɔ], [ə], [ʌ]
- Low vowels — tongue body is lowered
  - [æ], [ɑ]

## Vowel Frontness/Backness

## Vowel Frontness/Backness

- Front vowels

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward
  - [i], [ɪ], [e], [ɛ], [æ]

# Vowels

## Frontness/Backness

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward
  - [i], [ɪ], [e], [ɛ], [æ]
- Central vowels

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward
  - [i], [ɪ], [e], [ɛ], [æ]
- Central vowels — tongue body is neutral

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward
  - [i], [ɪ], [e], [ɛ], [æ]
- Central vowels — tongue body is neutral
  - [ə], [ʌ]

# Vowels

## Frontness/Backness

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward
  - [i], [ɪ], [e], [ɛ], [æ]
- Central vowels — tongue body is neutral
  - [ə], [ʌ]
- Back vowels

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward
  - [i], [ɪ], [e], [ɛ], [æ]
- Central vowels — tongue body is neutral
  - [ə], [ʌ]
- Back vowels — tongue body is pulled back

### Vowel Frontness/Backness

- Front vowels — tongue body is pushed forward
  - [i], [ɪ], [e], [ɛ], [æ]
- Central vowels — tongue body is neutral
  - [ə], [ʌ]
- Back vowels — tongue body is pulled back
  - [u], [ʊ], [o], [ɔ], [ɑ]

## Vowel Tenseness

## Vowel Tenseness

- Tense vowels

## Vowel Tenseness

- Tense vowels — more extreme / peripheral tongue position, slightly longer (English)

### Vowel Tenseness

- Tense vowels — more extreme / peripheral tongue position, slightly longer (English)
  - [i], [e], [u], [o]

## Vowel Tenseness

- Tense vowels — more extreme / peripheral tongue position, slightly longer (English)
  - [i], [e], [u], [o]
- Lax vowels

## Vowel Tenseness

- Tense vowels — more extreme / peripheral tongue position, slightly longer (English)
  - [i], [e], [u], [o]
- Lax vowels — more neutral / less peripheral tongue position

## Vowel Tenseness

- Tense vowels — more extreme / peripheral tongue position, slightly longer (English)
  - [i], [e], [u], [o]
- Lax vowels — more neutral / less peripheral tongue position
  - [ɪ], [ɛ], [ʊ], [ɔ], [æ], [ɑ], [ʌ], [ə]

## Vowel Roundness

## Vowel Roundness

- Rounded

## Vowel Roundness

- Rounded — produced with rounded lips

## Vowel Roundness

- Rounded — produced with rounded lips
  - [u], [o], [ʊ], [ɔ]

## Vowel Roundness

- Rounded — produced with rounded lips
  - [u], [o], [ʊ], [ɔ]
- Unrounded

## Vowel Roundness

- Rounded — produced with rounded lips
  - [u], [o], [ʊ], [ɔ]
- Unrounded — produced with unrounded lips

## Vowel Roundness

- Rounded — produced with rounded lips
  - [u], [o], [ʊ], [ɔ]
- Unrounded — produced with unrounded lips
  - [i], [ɪ], [e], [ɛ], [æ], [ʌ], [ə]

# *Diphthongs*

# *Diphthongs*

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

# *Diphthongs*

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ] = [oi] = [oɪ]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ] = [oi] = [oɪ]
- [aʊ]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ] = [oi] = [oɪ]
- [aʊ] = [aʊ] = [au]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ] = [oi] = [oɪ]
- [aʊ] = [aʊ] = [au]
- [eɪ]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ] = [oi] = [oɪ]
- [aʊ] = [aʊ] = [au]
- [eɪ] = [e] = [ei]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ] = [oi] = [oɪ]
- [aʊ] = [aʊ] = [au]
- [eɪ] = [e] = [ei]
- [oʊ]

# Diphthongs

## *Definition (Diphthong)*

A two-part vowel sound consisting of transition from one vowel to another in same syllable

## Diphthongs of English

- [aɪ] = [ai]
- [ɔɪ] = [oi] = [oɪ]
- [aʊ] = [aʊ] = [au]
- [eɪ] = [e] = [ei]
- [oʊ] = [o] = [ou]
